In the recent past, every chief procurement officer (CPO) in the SEA/ASEAN region has been tested by unprecedented phenomenon with diverse problems, priorities, and issues. The crises risen for the past few years have made it necessary for the procurement leaders to focus on transforming their procurement function into a resilient and agile function. Visionary CPOs are building flexible and resilient supply chains by leveraging digitalization, tech-driven innovation, and integrating operating models based on data-driven insights. Driving agility to help achieve healthy performance even in the times of significant disruption is a key value driver for CPOs.

From cognitive procurement solutions enabling better decision-making, and artificial intelligence (AI), machine learning (ML), and robotic process automation (RPA) automating mundane, repetitive tasks, Next-Revolutionary Procurement technologies will drive major changes in how organizations operate and procure in 2023 and beyond. By embracing digital transformation, CPOs can streamline operations, improve process efficiencies, and derive greater value from their investments in next-generation procurement technologies. It is time for procurement leaders to focus on procurement digitalization, driving strategic supplier relationship management, effective risk management, and developing in-house skills and competency to establish procurement as a sustainable profit driver. Join the biggest Revolutionary Procurement Conference of the year in Asia to gain practitioner insights into what procurement trends would look for ASEAN region in 2023 and what people, process, and technology aspects should be part of the CPO agenda to succeed with Next-Revolutionary Procurement.

 2024**

Conversational AI leading to increased productivity

Procurement forecasting with predictive analysis

What an amazing event. You and your team, CT Events Asia, did a spectacular job and definitely achieved beyond all the objectives you had set out with. It was wonderful to get to know fellow practitioners from around the world, hear expert views from different industries and to see active participation from the audience.

**-Kaustubh Wadekar (Singtel)**

Thank you for your kind words. It was great conference Thanks for the opportunity. It was a delight to have been a part of the **ASEAN PROCUREMENT INNOVATION SUMMIT 2023**.

**-Rahul Marwah (KPMG Australia)**

Thanks again for the opportunity and putting together an amazing event

**-Harish Kumar Chukka Bhasker (Carelton)**

I was incredibly honoured and privileged to have been a part of this prestigious event. Not only was it impactful but also purposeful. The objective of the summit and the content that was transacted were all powerful tools to procurement and supply professionals in this ever changing, dynamic and constantly evolving environment. I walked away from this summit, in not only having shared from my experience, but also deeply enriched listening to other eminent speakers. The line up of speakers and panelists were impressive. It was an event that was so well thought through and organised to provide a seamless experience

**-John Dulip Kumar (PVH Far East Limited)**

Thank you and your team for hosting us, and for delivering such a great event to success! It was my pleasure to be part of the event. Happy to contribute more at future events.

**-Zoe Wang (McKinsey & Company)**

Thank you for your kind words. I'm delighted to have been a part of the ASEAN PROCUREMENT INNOVATION SUMMIT 2023. I'm pleased to hear that the delegates found value in my presentation. Looking forward to future collaborations.

**-Dr. Arafat El Mourad (Innovation in Procurement Consultancy Services)**

It was such a great and well planned summit. I love your team and their energy. (hope you enjoyed mine too) Thank you for the opportunity

**-Ben Koh (IDP Education Ltd)**

" I think, the innovation in procurement practise in the last couple of years is mostly centered around the light. Today's conference, the ability to adapt digital technology and I think the practise need to change where all the procurement expert need to learn how to adapt, configure this particular technologies. "

**Luke Kenny (LOCAL GOVERNMENT PROCUREMENT)**

" This is the 2nd time I'm attending under CT Event. Looks like they have better cast of the speakers, excellent agenda related to AI and Digital which is relevant now & great impression. "

**Kaustubh Wadekar (SINGTEL)**

" Work with other people in the organization just so that we didn't work alone. because we only have one narrow thinking if we work alone "

**Dr Christina SS Ooi (PROCUREMENT EXPERT)**

" All of these areas, AI will be affecting. With the huge efficiency. It's not removing the jobs, but definitely saving time "
